## Summary

Mobile Application Developer with 2+ years of Flutter experience. Shipped production apps with **50,000+ downloads** across Play Store & App Store. Proficient in Clean Architecture, state management (BLoC/GetX), Firebase, and RESTful APIs. Passionate about building high-performance, user-centric mobile experiences at scale.

## Technical Skills

**Languages & Frameworks:** Dart, Flutter, JavaScript, Java, HTML/CSS, MySQL

**Mobile & Design:** Cross-Platform (Android & iOS), Material Design, Responsive Web Design, Responsive UI, UX Design, Play Store & App Store Deployment

**State Management:** BLoC, GetX

**Backend & APIs:** RESTful APIs, DIO, JSON Parsing, Token-based Auth, Node.js, MySQL

**Firebase:** Authentication, Cloud Firestore, FCM, Dynamic Links, Realtime Database, Analytics

**Tools & Practices:** Git, CI/CD, Clean Architecture, SOLID Principles, Hive, Google Sign-In

## Professional Experience

### Mobile Application Developer

May 2025 – Present

*TalentTurbo Technologies*

Chennai, India

- Spearheading development of TalentTurbo — a cross-platform Flutter job portal and referral platform published on Play Store & App Store with a **4.7★ rating**
- Architected end-to-end mobile app: authentication (Google Sign-In + OTP), job discovery, application tracking, profile management with resume upload/image cropping, and referral rewards system
- Engineered Firebase Dynamic Links for viral job sharing with referral codes, boosting user acquisition; implemented FCM push notifications across all app states
- Managed **20+ RESTful API integrations** with token-based auth; built advanced search with autocomplete, multi-filters, and bookmarks
- Optimized performance using Hive for local caching and offline state persistence
- Built **BellyButton** — a real-time event photo sharing app for weddings, parties, and group gatherings; implemented Firebase Firestore sync, FCM notifications, OTP auth with SMS auto-read, AWS integration, and GetX state management across Android & iOS

### Mobile Application Developer

May 2024 – Apr 2025

*RORIRI SOFT*

Chennai, India

- Promoted from intern to core developer; built and shipped high-performance Flutter apps on Play Store & App Store
- Implemented BLoC and GetX state management; integrated 20+ REST API endpoints and Firebase services (Auth, FCM, Firestore, Dynamic Links)
- Collaborated across cross-functional teams to deliver production apps following Clean Architecture and SOLID principles

### Mobile Application Developer Intern

Mar 2024 – May 2024

*RORIRI SOFT*

Chennai, India

- Built UI components using Flutter & Dart with Material Design; integrated REST APIs and Firebase (Auth, Firestore, FCM); applied BLoC/GetX state management in production codebases

### Full Stack Developer Intern

Apr 2024 – Jun 2024

*Amshuhu iTech Solution Pvt Ltd*

Chennai, India

- Developed responsive web interfaces (HTML, CSS, JS) and backend APIs using Node.js with MySQL
- Built mobile screens in Flutter & Dart; connected frontend/mobile clients to RESTful backend services
- Contributed to production apps that collectively achieved **50,000+ downloads** across Play Store & App Store

### Flutter Development Trainee

Jan 2024 – Mar 2024

*Greens Technologys*

Chennai, India

- Completed intensive 3-month Flutter training; built Android & iOS projects covering widgets, layouts, navigation, state management, REST API integration, and responsive UI design

## Key Achievements

- Published apps with **50,000+ downloads** across Play Store & App Store · Achieved **4.7★ rating** on TalentTurbo
- Promoted from intern to full-time developer based on performance · Built viral referral system with deep linking boosting user acquisition

## Education

### B.Com with Computer Application

May 2020 – May 2023

*A.V.C. College (Autonomous)*

Tamil Nadu, India
